APPLY ONLINE TO THE UNIVERSITY

https://www.students.graduate.ucf.edu/gradonlineapp

This program is designed to enroll a small cohort of students; therefore, admission is competitive. The Intervention Specialist Review Committee will review each applicant's materials and provide a favorable recommendation for admission to UCF for those candidates best suited for the program. Information concerning specific admissions policies and procedures can be obtained from the program website: http://www.graduatecatalog.ucf.edu/programs/program.aspx?id=10939

Admission Deadlines:
- Fall - July 15
- Spring - December 1
- Summer - April 15
Overview

The intervention specialist certificate provides students with the opportunity to develop advanced diagnostic assessment skills to target appropriate educational interventions in reading and mathematics. Students who attain this certificate will acquire knowledge, skills, and competencies for working with students within an intervention framework.

This is a multi-disciplinary certificate and includes coursework in exceptional student education, school psychology, reading education, and math education.

Testimonial

“I have truly been excited to study and work alongside each of you. I have learned so much in these courses and am extremely grateful for the opportunities that they brought into my life. I would have never had the confidence or knowledge to start the intervention program. I learned a great deal about MTSS and was able to share a great deal of information with my colleagues and school community. I learned the importance of progress monitoring and fidelity of instruction. I just loved the excitement! I had to try the things I learned or discovered in each of these courses as soon as I returned to my classroom and school.” Alicia, 2014
