Read2Succeed

Give elementary school students the individual attention they need to succeed through Read 2 Succeed! Read2Succeed is a program managed by the Foundation for Orange County Public Schools that matches volunteers with first or second graders at an Orange County elementary school who are having trouble in reading to help them learn to read on grade level.

You would work with either a first grader on vocabulary enrichment or a pair of second graders on reading fluency.

Volunteers are needed school days, Monday through Friday from 9:00-2:30. A bag of materials, lessons and resources will be provided at your volunteer orientation session for you to work with your child. You can help a child read!

Read2Succeed is a partnership with the UCF Honors Educational Reach Out (HERO) Program. HERO is a program that is open to all UCF students. For more information about how to get involved, email the HERO Coordinator at hero@ucf.edu or stop by the Burnett Honors College room 107.
